PROFESSIONAL SUMMARY

Results-driven Engineer with less than a year of experience in developing and maintaining sophisticated software solutions. I am skilled in collaborating within agile teams to deliver high-quality software, I am passionate about harnessing cutting-edge technologies to drive innovation. With a growing interest in Data Engineering and Machine Learning, I am dedicated to ongoing learning and professional growth in these fields alongside software development.

SKILLS

- **Programming Languages:** Python, Java (Spring Boot, Microservices)
- **Web Development:** ReactJS, JavaScript, HTML, CSS
- **Databases & Cloud:** SQL, MongoDB, AWS
- **Log Management and Analysis:** Elasticsearch, Logstash, Kibana, Power BI.
- **Agent Development Kit:** Google ADK

EXPERIENCE

Associate Engineer, Brillio Technologies

March 2024 – Present

Training & Skills: Completed rigorous training in Java, Spring Boot, Microservices, SQL, React.js, JUNIT, and ELK Stack, equipping me with a solid foundation in modern software development and data management technologies.

Project Experience:

Client: VERIZON

1.POS Micro-Frontend (MFE) Migration

Played a key role in modernizing Verizon's in-store Point-of-Sale (POS) application by migrating from a monolithic frontend to a scalable Micro-Frontend (MFE) ecosystem using **React** and **Redux Toolkit (RTK)**.

- Owned high-priority feature development and bug resolution, ensuring reliable functionality throughout the migration.
- Boosted development velocity by 15–25% through reduced inter-team dependencies and streamlined CI/CD pipelines.
- Contributed to a more resilient, scalable, and performant POS platform used daily by Verizon store representatives.

2.Agentic AI Initiative

Currently building a customer support agent using **Python**, **Google ADK** atop the PyVegas framework as part of Verizon's Agentic AI team.

- The intelligent agent enhances the POS POC application by assisting store representatives in resolving order-related issues, thereby improving customer experience and operational efficiency.

Software Engineering Intern, Cloud Tel Solutions

January 2023 – March 2023

Developed a web-based Social Media application specifically tailored for photographers, providing them with a platform to share and showcase their work.

EDUCATION

Bachelor of Engineering, CSE

Coimbatore Institute of Technology

August 2019 -August 2024

CGPA 8.9/10

Class 12th - HSC

Sri Ramakrishna Matric higher secondary school

May 2017 – May 2019

Percentage - 94%

Class 10th - SSLC

Thanthai Roever Matric high school

May 2016 – May 2017

Percentage -99%

PROJECTS

SMART ALEXA - Developed and designed a Progressive Web Application that serves as a helpful assistant and reminder for visually impaired and elderly individuals.

INTELLIPARK - Developed a Smart Parking System that functions as an assistant, aiding users in selecting the optimal parking slots within a designated area.

SMART CHAIRS - The chair, equipped with sensors, identifies improper sitting postures and offers a weekly summary of an individual's sitting habits.

ACHIEVEMENTS

- **Distinction List** (2019-2024): Consistently maintained a CGPA of 8.5 or higher.
- **District Rank** (2017): Secured District third in SSLC Examination.

CERTIFICATIONS

- Learn Before Join – **Brillio Academy**
